FIFTY-NINTH YEAR OF CONTINUOUS PUBLICATION

SPECIALISTS, EXPERTS, AND AMATEURS

By GILBERT S. PEREZ

Department of Instruction, Manila, P. I.

Dr. Jose Rizal, the Filipino hero and writer, portrays in his novel, "NOLI MI TANGERE," the character of a certain Spanish provincial physician, Dr. de Espadana, who described himself as a "Specialist in all types of human ailments." He must have been, however, in spite of his pretensions, a fairly satisfactory village doctor. In real life we had in the now ruined "Walled City" of Manila, a physician who improved on his fictional prototype by being not only a multi-specialist but also a "specialist by rotation." He had an elaborate brass sign on his office door on which was inscribed: "Dr. X, Specialist in _____", and below this was a glass covered opening in which he could conveniently place pasteboard cards on which were printed: Diseases of Children, or Pulmonary Diseases, or Diseases of Women, and on down the list of pathological disorders. During the rainy season he found it very profitable to be a "Specialist in Pulmonary Troubles" and when the hot season tormented us he would display the cardboard announcing his special proficiency in "Diseases of the Alimentary Canal." As the brass sign remained for many years on the good doctor's door, we must concede that his specialization by rotation must have been as fruitful as it was convenient in attracting a lucrative, or at least a semi-lucrative practice.

These characters, both real and fictional, are mentioned only in order to emphasize the fact that in numismatics as well as in medicine, although specialization pays dividends, it is specialization by "rotation" that keeps the ball a'rolling. One must not only be a specialist in one series but his specialization should be so elastic that it may be easily modified to adapt itself to the current trends in human ills or in numismatic idiosyncracies. As collectors, specialists or experts, we should concentrate our efforts in one direction only if we have our weather eye peeled on the ever changing fashion barometer.

Of course it soothes our vanity to be able to pontificate once in a while for the delectation of our admiring friends but it very soon becomes a bore. Furthermore, by being a specialist we miss the delights of so many

equally satisfying fields. To most of us, life is too short to permit us to become experts or specialists. To become a specialist in Greek coinage one would have to devote a lifetime of study and of close application to the job. It would require most erudite scholarship, an age of time and a pocket-book that would be adequate enough to permit us to purchase our study material in an increasingly bullish gray or black numismatic market. To become an expert on the Spanish American series would also mean that considerably more reading would have to be done in Hispanic art, history, and economics than we could afford to do in this short life of ours.

Perhaps it is only my personal opinion, but I do believe that the extent of our enjoyment of numismatics both as a hobby and as a science depends a great deal on the catholicity of our interests and on whether we have restrained ourselves from the temptation of being so absorbed in one narrow group that we miss altogether the delights that come from a butterfly-like sipping of the honey of knowledge from many and varied fields. Of course, this dilettante attitude proscribes all hopes of ever qualifying as an expert in one line but there is, in compensation, such an added richness of experience. Few would want to waste the precious time of a very brief existence to become an expert in Sung amulets but who can deny that handling two or three of those green, patinated relics of the past and the learning of something about them gives us a great amount of pleasurable excitement? One may not want to devote too much time in studying the intricacies of the coats-of-arms of central European thalers but who will not enjoy the delights of being able to understand the meaning and the history of at least a few of these interesting items.

Perhaps, it would be best for the average collector to have one old standby to which he gives his greater love but at the same time permitting himself the luxury of an occasional venture into a few sidelines which may help him to acquire a far greater appreciation of the group to which he devotes the most of his efforts and time. Such little adventures prevent him from becoming too narrow and give him a more sympathetic understanding of his fellow collectors who specialize in other series.

There are some countries which are overburdened with experts and where numismatists could obtain more fruitful enjoyment by the growth of a happy-go-lucky but earnest group of confirmed amateurs, men and women, who seek their coins solely because of the pleasure which they may experience in studying and handling them. They take the path of least resistance and get a great kick out of life by qualifying themselves for the title of "amateur," with all of the companionship, helpfulness and mutual tolerance that is found among all groups of enthusiastic amateurs.

They leave the headaches, and the worries and the drudgery to those who have graduated from the ranks of amateurs, to those who, because of financial adequacy, mental ability and the time at their disposal can and do wear the toga of experts in at least one series or group. Perhaps it may be advisable to apply ourselves to the task of qualifying for the title of "semi-specialist" in coins of all series and of all ages. The time spent would be shortened, the task more enjoyable because of its variety, and the resulting qualifications may prove to be more lucrative. Even a little adventure in the field of "coins by the roll" may be thoroughly

enjoyable if we refrain from putting the rolls in our cabinets and use the wiser procedure of placing them in our safety deposit boxes along with our gilt-edge bonds, stocks and other business paraphernalia. I've never been able to enjoy such luxury and often wonder how a numismatist would feel if he were able to collect gold-seal ten dollar bills by the uncut sheet. It must be very exhilarating if not overly thought-provoking.

I wonder if there is a word that would adequately interpret our group and its activities. The expression "coin collector" brings a picture of one who accumulates, accumulates, and accumulates and who does not have the time for anything else. The term "hobby" and "hobbyist" connote an overgrown adolescent who rides furiously back and forth on a wooden horse but who never gets anywhere. As numismatists, we are immediately classified with psychiatrists, catalysts, sartorialists, tonsorialists, and other mysterious, ultra-scientific groups. The word "expert" has been used and abused to such an extent that we might shiver with apprehension while our good friends smile most sympathetically when we proclaim to them our recently acquired professional attainment.

We cannot hope for a strong amateur group because of the present standing of the word "amateur" in the United States. Brave indeed would be the man without an inferiority complex, who would announce to his circle of friends: "I am an amateur," and then face unflinchingly, silent but inquiring eyes that ask him when, where and on what radio or vaudeville stage did he get the proverbial hook. Would that there were a word in the English language that would correspond to the Spanish word "aficionado": one who delights in and who receives a world of pleasure, happiness, relaxation, recreation, and enjoyment in a particular physical or mental avocation. Perhaps, there is one!

NINETEENTH CENTURY CROWN SIZE COINS OF EUROPE: A SERIES

By JOHN S. DAVENPORT, Galesburg, Ill.

XVII. SPAIN

Modern Spain was formed by the marriage of Ferdinand of Aragon to Isabella of Castile and Leon in 1469. Granada, the last Mohammedan state, was permanently conquered in 1492. The death of the sovereigns' only son threw the succession into the lap of the Habsburgs, one of whom had married their insane oldest daughter. So on Ferdinand's death in 1516 he was succeeded by his grandson Charles, who became also Holy Roman Emperor in 1519. The Habsburg dynasty faded out in 1700 with the death of the imbecile Charles II. Charles left the throne to the grandson of Louis XIV of France, who became King of Spain as Philip V and founded the Spanish Bourbon dynasty. Ferdinand VI succeeded his father and was succeeded in turn by his son Charles III (1759-1788). The moronic Charles IV (1718-1808) continued his father's despotism without any of the enlightenment and remained most of his life under the influence of his narrow-minded wife Maria Luisa of Parma.

Napoleon's shadow was lengthening across Spain, and in 1808 a series of disgraceful actions sent the old King and Queen pensioned to Rome, placed the young King Ferdinand VII, for whom his father had abdicated, in six years' captivity, and put Napoleon's brother Joseph on the throne in Madrid. The Spanish people rose in infuriated rebellion on May 2, 1808, and for six years all-out or guerrilla warfare flourished. Always a part of Spain remained independent of French government although at one time only Cadiz among the major cities was still in Spanish hands.

The currency during these years was, of course, in a state of considerable confusion. The year 1808 saw the beginning of three separate series: that of Joseph Napoleon, from the Madrid and in 1812 from the Seville mint, continued until 1813; that of the imprisoned King Ferdinand VII which was perpetually interrupted but which appeared each year from 1808 on and from one or more of six Spanish mints; and that of Barcelona under French occupation which was issued from 1808 to 1814. In addition necessity pieces, sometimes very crudely struck with arms, sometimes with Ferdinand's head, appeared in 1808 and 1809 as Gerona, Lerida, Terragona, and Tortosa were besieged by French forces. Likewise similar coins appeared from Majorca and the Balearic Isles in general, at this time and again in 1821-1823.

Ferdinand returned to Madrid in 1814 and continued to reign until 1833. On his death his two year old daughter Isabella was declared queen. This move had been opposed for some time by the King's brother Don Carlos, who immediately instigated a civil war which dragged on for years. The dowager Queen Cristina was made regent, a position she occupied until her abdication in 1840. The young queen was declared of age in 1843. The reign which followed was a confused period of attempts by the young queen and her advocates to rule despotically, tempered by the growing power of liberal and constitutional forces. The

dismal and sorry rule came to an ignominious end in 1868 with a rebellion which sent the queen into exile.

The country, however, was not ready for a republic, and a new constitution provided for a liberal monarchy, which was set up under the regency of the military leader of the moment, General Serrano. The search for a new king began with many candidates and many conflicting parties.

Finally, in August of 1870, Prince Amadeo of Savoy, second son of Victor Emmanuel of Italy, was selected. Amadeo dragged out a disheartening reign until February of 1873, when he gladly abdicated the throne. The republicans, because of lack of opposition, took over. Anarchy, however, prevailed, and many sections of the country were organized as independent units. In Carthage the Cantonalists, as the extreme states rights party was called, seized control until British and German warships intervened. In September a five pesetas coin was issued from the city. It finally became apparent that the only hope of restoring order lay in the return of Isabella's son Alphonso. He was proclaimed king in December 1874, his acceptance by the people spreading rapidly, and in January of 1875 Alphonso landed in Barcelona from exile.

It took the armies of Alphonso XII two years to crush the last of the armed opposition to him—the Carlist bands entrenched in the mountains of the north. But Spain was not to remain quiet. Throughout the rest of Alphonso's reign the country seethed with one agitation after another, and the king died in November 1885 with affairs in a most unsettled state.

Alphonso XIII was born six months after his father's death; and was still only a boy when Spain's coinage of silver dollar size pieces ceased in 1898.

PUBLICATIONS RECEIVED

A GUIDE BOOK OF UNITED STATES COINS. By Richard S. Yeoman. Published by Whitman Publishing Company, Racine, Wisconsin. 1946. 256 pp. Index. Size $5\frac{1}{8}$ by $7\frac{3}{4}$ inches. Bound in cloth. Price \$1.50.

The word "guide" when used in a title often suggests a synoptic treatment that leaves no room for details but this new catalogue by Mr. Yeoman is much more than the title indicates. Aside from being a comprehensive list of all the coins issued for and in this country since 1616 it gives much useful information gleaned from authoritative sources. Nearly all types are illustrated and many distinct varieties are identified by photographic enlargements. The current retail market value is given for all pieces except the great rarities.

The most interesting feature of this catalogue is perhaps the mass of information devoted to the various issues. Beginning with "An Introduction to United States Coins," which runs well over 5,000 words, it follows through with the essential details of the colonial and state issues, regular issues, commemorative issues, and private gold. Additional chapters are devoted to the Confederate issues, Mints and Mint Marks, and the Quantity of Coins Struck. The last is arranged according to denomination, date, and mint mark, and gives the number of pieces struck.

Lest we appear too enthusiastic over this handy encyclopedia we should remark that we do not subscribe to all the information in it. We believe that the name "Orphan Annie" belongs in a comic strip and not to the dime of 1844. Nor do we believe the silver dollar of 1804 to be the "King of U. S. Coins."

There are other minor inaccuracies but in comparison with the general excellence of the book they are unimportant. The author is to be congratulated on a workmanlike job and the publishers congratulated for a high class job of printing and binding at a remarkably modest cost.—S. M.

MUSEUM NOTES I, 1945. Published by the American Numismatic Society, New York, 1946.

Designed to supplement "Numismatic Notes and Monographs," and "Numismatic Studies," the initial issue of this small but trenchant publication will delight the specialist as well as the general collector. Its purpose is to record observations, acquisitions, and short studies pertinent to the collections and publications of the Society. The contributors and editors have taken good advantage of this scope and while the result leans slightly towards the classical, modern issues have not altogether been neglected. In R. I. Nesmith's article on "A Hoard of Lima and Potosi Cobs," we have a splendid example of the correct thing to do when you hit the numismatic jackpot.

As plans are now this publication will be issued yearly but those in possession of the first number will undoubtedly wish it could be issued more frequently.—S. M.

TENTH ANNIVERSARY OF THE OREGON NUMISMATIC SOCIETY

One hundred four members and guests gathered in the Crystal Room of the Benson Hotel in Portland, Oregon Sept. 14, to commemorate the 10th Anniversary of the founding of the Oregon Numismatic Society. The event was celebrated with a banquet honoring the charter members and, featuring an extraordinary numismatic display and the issuance of a tenth anniversary medal.

The record gathering was presided over by toastmaster Jos. V. LaMore.

The following program of entertainment and numismatic ramblings was presented:

Portland's First Coin Club	Howard F. Hughes

BOSTON CLUB HONORS MEMORY OF SHEPARD POND

The Boston Numismatic Society commemorated its 85th Anniversary and honored the memory of Shepard Pond by issuing a handsome silver medal. Though the design was completed and the medals ordered many, many months ago the striking was delayed and only now is it possible to illustrate it.

Designed by Henry Schuhmacher, president of the Boston Numismatic Society, it shows the seal of the Society, the life span of Shepard Pond, and the Anniversary date of the Society. The lettering is bold and striking and altogether the medal is rather handsome. Mr. Schuhmacher has donated a specimen to the A. N. A. collection.

SIGNATURES ON DOLLAR CERTIFICATES

By L. F. Marks, A. N. A. 3668, Pittsburgh

The September issue of THE NUMISMATIST carried an article entitled "Vinson's Name on Dollar Certificates" by Robert H. Lloyd. At the time Mr. Lloyd wrote his article he had no information on the first silver certificates carrying Vinson's signature, but he believed that they started in the serial run D-D. For the information of those who are interested, I have an uncirculated copy of a silver certificate with Vinson's signature, series 1935-B, signed by Julian-Vinson, the serial number of which is C-93384817-D. There is no way of knowing just how many were issued before mine, but at least the fact can be established that the Vinson signatures first appeared in the C-D run.

As far as the new Secretary of the Treasury is concerned, Mr. Snyder, I have a silver certificate bearing his signature, numbered K99996325-D. This serves to establish the fact that Mr. Vinson's signature appeared for the first time in the K-D serial run.

If any collectors of currency have any information on United States currency on thin paper, that information would be appreciated by the writer because I have obtained an almost uncirculated silver certificate, series 1935-B, with signatures of Julian-Vinson on paper that is about half the thickness of the usual paper. This bill was obtained in a bundle of used bills from a local bank and measurement with a micrometer shows that it is just about half as thick as the paper used in currency today. There is nothing on it to indicate that it is a special run of any kind, as was the case of the silver certificates bearing the red "R" and the red "S." Any information on this should be of general interest to all collectors of currency, and would be welcomed by the writer in particular.

THE EDITOR'S CORNER

Writers Argue for Small Issues

The authorization of the Iowa and the Booker T. Washington commemorative half dollars has encouraged thirty-seven readers to submit their viewpoints for publication in *The Numismatist*. Several such letters have been published and more will appear as space permits.

Curiously enough not a single writer approached the subject in an objective fashion. Could it be that the writers are concerned only with the number of coins issued and the cost, rather than the original purpose of a commemorative issue! More than a few writers seem to be under the impression that commemorative coins are issued solely for collectors and that the A. N. A. should see to it that no such issue exceeds more than a few thousand pieces.

In the past the A. N. A. has fought against abuses connected with the distribution of commemorative coins and it stands ready to fight again but not on the side of a few selfish collectors who are interested only in limited and speculative issues.

We believe that commemorative coins should get into the hands of the general public, whether they receive them in change or pay a premium for them in support of a worthy (or at least interesting) cause. Notwithstanding the current objections to commemoratives they have been popular for twenty-five hundred years and we have a feeling that the idea behind them is more than just a passing fad.

Coin Tossing Fatal to Seal Collectors Clamor for Collection

It looks as if Oscar, Golden Gate Park's late great collector of coins, has left estate litigation in her wake.

Oscar, who was a lady, swallowed coins thrown by a generous public for three years at the park's Academy of Sciences.

Zinc chloride poisoning from wartime coins killed Oscar. In her stomach were found 514 pennies, 27 nickels, 8 dimes, 1 quarter, 1 Canadian penny, 1 street car token and 1 amusement token.

This adds up roughly to \$7.83 1/4, which is a lot of dough for a three-year-old seal. But Oscar should've

known she couldn't take it with her.

Latest reports from the Academy indicate that the scramble is on for Oscar's life savings. Dr. Robert C. Miller, Academy director, says he has received requests for the coins from coin collectors all over the country.

Some of the letters express great sympathy for Oscar's demise.

One comes from fourth graders at the Germantown Friends School in Philadelphia who condemn a "Public" who would feed zinc coins to seals. They want one of the pennies.

Another is from a young street-car token collector in Fort Worth, Tex., who wants the lone token found in Oscar and sent a Fort Worth token in exchange.

New Members Wanted

Efforts are being made to gain new members for the A. N. A. and promote local attendance by the Southeastern Numismatic Association of Florida. Collectors living in that vicinity are urged to contact either Johnny Flood, P. O. Box 4026, Jacksonville, or W. B. Rahn, 1215 Security Bldg., Miami 32, Florida.

High School Boys Organize Club

Under the guidance of members of the Western Maryland Coin Club, eighteen boys of the Allegany High School, Cumberland, have formed a coin club and plan to apply for corporate membership in the A. N. A.

Alfred Hutter, secretary of the Western Maryland Coin Club, addressed the second meeting held by the boys and gave them a good insight on the ways and whys of coin collecting. Other members of the W. M. C. C., including Holmes H. Cessna, have been made honorary members and plans have been made to give talks to the boys at successive weekly meetings, held after classes at the school.

Mr. Cessna, whose address is Box 133, Cumberland, Md., would appreciate literature sent to him for distribution among these young collectors.

NOTES AND QUERIES

Pleased With Award Medals

Mr. V. Leon Belt,
A. N. A. President,
Phoenix, Arizona

Dear Mr. Belt:

My most sincere thanks to you and to the Association for the beautiful silver Award Medal. It is my most precious numismatic specimen.

If my old eyes permit I will compile another list of foreign copper coins, next year, for publication in *The Numismatist*.

Sincerely yours,

O. P. EKLUND,
Spokane, Wash.

Dear Mr. Belt:

The medal arrived yesterday and I take this opportunity to thank you and the Association for it. It is very beautiful and I shall treasure it always.

It has always been a joy for me to write for *The Numismatist* and a greater joy to have this medal as a souvenir of my connection with it.

Faithfully,

DUDLEY BUTLER,
New York City

Coin Club Formed in Wichita

On October 17, ten coin collectors met at the local Y. M. C. A. and organized what will be known as the Wichita Coin Club. The following officers were elected: President, Lewis M. Reagan; vice president, I. E. Rumpf; secretary, C. B. Edwards.

A program was outlined and a cordial invitation was extended to all nearby collectors to attend future meetings which will be held the 3rd Thursday of each month.

Wants More Coins, Fewer Stamps

Dear Mr. Mosher:

Your editorial in the September issue on the Treasury's, (and backed

by Mr. Truman) disapproval of new commemorative half dollars amuses me, especially when they claim that such coins cause confusion. If the few commemorative halves cause confusion (I've picked up two in my life from circulation) what about the deluge of commemorative stamps!

Ah! but that is different. The stamps and stamp collectors have pulled the Post Office out of the "red" and have kept it out. But there is little profit to the Treasury in minting commemorative coins, hence the nuisance.

Being a collector of both stamps and coins I would like to see fewer new issues of stamps and more issues of coins. But let us have no more limited issues of commemoratives and let us hope that they don't sink the boat.

LEO H. JOHNSON
Salem, Oregon

Varieties of Grants With Star

Dear Editor:

I read with interest the item in regard to the Grant with faked star which appeared in the September issue.

If you take a genuine Grant half dollar with star and hold it at an angle, with a good glass you will see a slight impression between G in GRANT and the tip of the chin. I understand that this was placed there by the Mint to distinguish genuine from fakes. The impression will not be found on the 1922 plain Grant. I will be glad to send you one of each for comparison if you wish.

W. O. WHITE
Watkins Glen, N. Y.

Answer: I have seen genuine, pedigreed Grants with star that did not show this peculiarity. According to the Mint records eight different dies were used in striking the obverses of Grant half dollars and at least three varieties of the "star" obverse are known. It is highly improbable that the mint placed any secret marks on any of our commemorative half dollars. As was stated in the September issue, the best test for genuineness is an examination of the star itself. In the star we have never seen any variation.—Editor.

FROM THE DESK OF THE GENERAL SECRETARY

LEWIS M. REAGAN
P. O. Box 577
Wichita 1, Kans.

This page appears from time to time in *THE NUMISMATIST* as a means of making some official announcements, answering of questions of general interest or importance, and for other remarks or comments. Some matters, previously mentioned, are included occasionally where they appear to need re-emphasis.

Membership Directory

Every member of the Association and all those on the mailing list at time of publication (October 1) should have received a copy of the new Membership Directory. A copy will be supplied promptly to any member who failed to receive it on notice to the General Secretary. If your copy was received in damaged condition it may be exchanged for one in good condition. Extra copies are available at \$1.00 each. Please notify this office of any error that may appear in connection with your own listing.

Membership Dues

Statements for 1947 membership dues have been mailed. Please give this your prompt attention. Kindly return the statement with remittance. It will be receipted and returned to you with your membership card. In case of error or failure to receive statement, please notify this office promptly.

Resignations

Most members renew their mem-

berships year after year and it will be assumed that you intend to do so. Some indulgence is extended by the Association but the new by laws provide that members in arrears on March 1 shall be liable to suspension. If you do not plan to renew your membership, please notify the General Secretary.

Changes of Address

This announcement has been made repeatedly but is most important. Notice of change of address must be sent to the General Secretary and must be received by the 20th to be effective for the following month. Such notices, when sent to another office of the Association, have to be forwarded. This is an extra burden on the other office and often results in a month's delay in making the notice effective.

Club Reports and Organizational Directory

Club reports and notices of change of club officers should be sent to the Editor. If such notice includes change of address for mailing *The Numismatist*, it should also be sent to the General Secretary. Any errors that may have appeared in the last published Organizational Directory should be reported to both offices. Your cooperation is essential if this Directory is to be kept up to date.

Life Memberships

Members are again reminded that the life membership fee will be increased from \$50 to \$75 on December 31, 1946. Applications received on and after January 1, 1947 will require the increased fee.

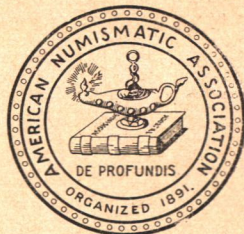

Season's Greetings

The General Secretary and his staff take this means and opportunity of extending to each member of the Association sincere wishes for a Merry Christmas and a Happy New Year.

Report of The General Secretary

Admissions to Membership

Applications numbered 13161-13281 as published in the October issue were admitted to membership on November 1. The statement in the October issue that they would be admitted January 1, 1947 was an error.

Applications numbered 13282-13368 as published in the November issue will be admitted to membership on January 1, 1947.

In order to make Article II, Section 3, of the new by laws effective, the former plan of admission to membership on the first of the month next following the publication of the application has had to be changed and the procedure now is to publish the Admissions to Membership in the second issue following that of the publication of the application. This change is being made effective for applications received after the new by laws went into effect and results in the fact that no admissions to membership are being made in December.

Applications for Membership

The following applications were received during the month of October, 1946. If there are no objections filed prior to January 1, 1947, these applicants will become members on February 1, 1947, and notice to this effect will appear in the February issue of THE NUMISMATIST.

REPORTS OF CLUB MEETINGS

SECRETARIES PLEASE NOTE: Reports should be made promptly. Copy must be received by the 10th of the month to insure insertion in the following month's issue. As a usual thing a copy of the minutes is sent in, and almost invariably a number of items of local concern only must be cancelled. The justification for publishing these accounts lies in the numismatic information—and encouragement—to be derived by collectors generally, regardless of location. On this basis we feel it advisable to revise and condense, and, incidentally, the by-product of this course is conservation of valuable space.

ASHVILLE COIN CLUB—The 14th meeting was held October 9 in the Wachovia Bank and Trust Company with nine members and two guests present.

Mr. Verner distributed printed copies of the Club's Constitution and By-laws to each member.

Mr. Walton exhibited minor U. S. coins mostly complete sets in proof or uncirculated condition; foreign gold and set of gold dollars lacking only nine.

—SIDNEY H. TEAR, Secretary

ATLANTA COIN CLUB—The 335th meeting was held Wednesday, November 6, at the Henry Grady Hotel. There were 16 members and one visitor present.

Mr. Gonzales, District Secretary of the A. N. A. exhibited a portion of Gold and Silver coins unearthed at Mobile, Ala. in excavation work. Mr. Gonzales also made a very interesting talk as to the features surrounding the discovery of this treasure.

The Library Committee reported suggesting a list of books which the Carnegie Library will purchase for the use of the Coin Club members and others interested in numismatics in general. This list will be furnished to the Carnegie Public Library authorities. There was a good deal of discussion as to programs for the meetings during the ensuing year.

Mr. Harley exhibited a hermetically sealed fruit jar of uncirculated Lincoln cents. It was stated that thus preserved there is not the slightest chance of tarnishing and the coins would keep in that condition indefinitely.

P. S. Reid the visitor to the meeting won the monthly draw.

—H. H. JOYNER, Secretary

BALTIMORE COIN CLUB—The regular meeting held September 19, with 31 members and two guests present.

The President, Mr. Sheckells, announced that Dr. David M. Robinson is now in Athens, Greece on his new assignment.

Mr. McCormick gave the Club details on the coinage of Presidential medals at the mint in Philadelphia and offered to obtain any desired by members.

Mr. Willie, Chairman of the Library Committee, stated that cards were being printed for members use in connection with use of the reference library.

The program of the evening consisted in a talk and exhibition of Maundy Money by the Club's President, John R. Sheckells. The subject was extremely interesting and well delivered. Many facts on the history of this interesting coinage were brought out and a general discussion followed the talk.

—R. C. HALL, Secretary-Treasurer

BIRMINGHAM COIN CLUB—The 21st meeting, Tuesday Oct. 15th, 8 P. M. in the Auditorium of the White Dairy Co., 621 So. 27th St. with 14 members and one visitor present.

The Secretary read a communication from the Asheville, N. C. club offering wholehearted support of the proposed Southeastern Numismatic Society, formation of which is now being studied.

Mr. Faulkner made a few remarks on the subject of the club getting some favorable publicity by having some wooden nickels made and

distributing them during our city's Diamond Jubilee celebration in the near future.

Mr. Ames made a very interesting talk on U. S. minor coins that are no longer minted and displayed various dates of half cents, three cents, both nickel and silver and half dimes.

Mr. Morris made a talk on the Bureau of Printing and Engraving and also displayed several uncut sheets of One, Two and Five Dollar small notes and Five Dollar large notes.

Mr. Rosene displayed an almost complete set of Fractional Currency notes, having all the rarities except one, also a large size Chinese note of 1000 cash denomination and used during the period between 1399 and 1420. This note is of special interest as it was made and used years before the printing press was invented. This note is one of a small quantity that was discovered in an ancient Chinese Temple and brought to America by a returning missionary.

—O. B. HUDSON, Secretary

—JESSE KLEIN, Secretary

BRONX COIN CLUB—The 158th meeting was held on Wednesday, October 23, at the Concourse Plaza Hotel, President Clark presiding.

Due to food shortages and the trucking strike it was decided to forego the customary birthday celebration and hold a regular meeting in its stead. The dinner was the usual one except for the birthday cake made up and decorated for the occasion of our thirteenth birthday.

After dinner the meeting was called to order by President Clark. Twenty members and eight

guests were present. Correspondence was read from Stuart Mosher, who told how the Texas climate was improving his health. He also gave some information about McAllen, Texas, and his plans in respect to his work on *The Numismatist*. A notice was also received from Fred C. C. Boyd, who has moved to Ringoes, New Jersey, also for reasons of health. The secretary was instructed to write to Stuart Mosher to tell him of the best wishes of members of The Bronx Coin Club and their hopes for continued improvement in health.

Mrs. van der Meer was asked to tell about her recent trip to the Netherlands. She recounted in a very interesting manner all of her experiences there, telling many surprising things about Holland. She said that for those having the allotted food coupons, food was plentiful. Clothing, however, was scarce. The devastation in some parts was appalling. Mrs. van der Meer was heartily thanked for her talk.

This was followed by a talk given by Mr. Kortjohn on Costa Rica, the coins of which were one of the topics for the evening. There was little to report on the coinage so the talk was largely confined to the history, customs, and physical and agricultural characteristics of the country.

The secretary reported that during the month he received the A. N. A. membership directory and checked the club membership with it. Out of a total membership of 54 members, five were not members of the A. N. A. He said he would try to reduce that number inasmuch as the club once had 100% membership in the A. N. A. He also announced that of the remaining 49 members, sixteen were life members of the A. N. A. He believed the Bronx club held a record in this respect. His hopes were shattered by Mr. John Hegarty, secretary of the Brooklyn Coin Club, whose club had twenty life members of the A. N. A. in its membership. The Bronx Coin Club will have to yield first place to the Brooklyn Coin Club but will endeavor to recover it in the near future.

Our treasurer, Homer Downing, spoke about the money paid out of the treasury every month because of the practice of the club to limit the cost of the dinner to one dollar and a half. He explained that for everybody that ate dinner the club had to pay twenty-seven cents. There was discussion on the matter and as a result it was moved, seconded and carried that in the future the members pay their own cost of the dinner, tax and tip, and that the club should no longer subsidize any part of the dinner cost.

Topics for the meeting were the U. S. half cents, fractional currency, private gold coins, coins of countries beginning with the letter C, except Canada and China, and medals of Columbus. Exhibits were as follows:

Mr. Bernstein: Double eagles 1892-S and 1908, eagles 1847 and 1912, and 1832 half cent; coins of Cuba, Costa Rica and Czechoslovakia.

Mr. Clark: Abbasid dinar struck in Egypt in 917 A. D., Columbian half dollar 1934, tical of Maha Mongkut of Siam.

—MARTIN F. KORTJOHN, Secretary

Dr. Wild spoke on his visit to the A. N. A. Convention and his successful campaign to bring

the 1947 Convention to Buffalo. Dr. Wild has been appointed chairman of the Convention committee and has already started to work. In order to expedite the planning, meetings will be held twice a month.

—CHARLES T. PRICKETT, Secretary

CALIFORNIA COIN CLUB—There was an attendance of 27 persons at the 224th regular meeting, held on the evening of November 5. This number included several visitors from Pomona and other neighboring cities. Lester E. Oyler reported that the new Booker T. Washington commemorative half dollars would be ready for distribution shortly, and arrangements were made to take members' orders for same; likewise for the Iowa commemorative which will be ready somewhat later.

As the first part of a double-barreled feature, Holzer Jorgensen gave a most interesting account of one of the club's most famous members, Wm. F. Dunham, deceased, whose very extensive collection of the United States series, Canadian tokens, etc. was sold at auction in 1941. Mr. Dunham, described as a quiet, mild mannered numismatist of the old school, never completed a series, fearing that on completion he might lose interest in collecting. He was a charter member of both the A. N. A. and the California Coin Club, and the owner of one of the famous 1804 dollars. Mr. Jorgensen read from early minutes and advertising matter found in the *Numismatist* of 1929 indicating that at that date proof coins were low priced and a drug on the market.

Max Mogi then took the floor in "A Numismatic Relapse," which involved a second chapter of his voluminous movie and other scrapbooks, his subjects also including foods, houses, automobiles and famous people. Mr. Mogi accompanied his exhibit with a lighthearted discourse, persiflage and what-not, reminding his audience in advance that he did not know what he was going to say, but that he intended to make them laugh. He did.

—EARLE K. STANTON, Secretary

ADVERTISERS PLEASE NOTE

All correspondence relating to advertising should be addressed to the Business Manager (see above). Make all remittances payable to the American Numismatic Association.

Advertising Contracts: These are available, covering periods of three, six and twelve consecutive months for display space as listed in the above Table of Rates, and are necessary if the schedule of reduced rates is to apply. If the advertiser prefers not to accept the Contract, such reduced rates will be granted only upon payment in advance for the period desired.

References: All advertisers who submit copy for the first time are definitely requested to furnish therewith banking or other satisfactory references.

Available Space Units: Practical considerations restrict the allocation of space units to those listed in the above table. Any amount of space (subject to any current limitations) is available IF these units or a combination of them are used. Unless contrary instructions are given, copy will be cut if found too full for the space designated; if no designation is made, it shall be understood the amount of space is left to the discretion of the Editor.

Classified Ads The cost is computed at seven cents per word each insertion: initials (two), numbers and abbreviations to count as words. Minimum charge, \$1.25. Remittance must accompany copy. These will be set in 6 point Roman; no display type.

Deadline: Copy must be received by the 10th of the month to insure insertion in the following month's issue.

Miscellaneous: Please furnish copy separately from your letter of transmittal. Advertising copy included in the body of a letter usually has to be re-typed for the printer; this should not be required.

Advertising copy should be prepared with minute care. Carelessness invites error—something which both advertiser and publisher are anxious to avoid. Use only one side of the sheet.

In the absence of an Advertising Contract, when payment in advance for any number of consecutive months has been made, if change of copy has not been received by the 10th of the month for the next issue, the latest preceding advertisement will be run.

Advertisers may use a trade name, but, except in the case of an incorporated concern, the name of the proprietor or of some other responsible person connected with the firm must also appear in the advertisement.

The right to edit copy, to require payment in advance, and to decline any advertisement is specifically reserved. Superlatives prohibited.

TO OUR ADVERTISERS:

(Reprinted from our October issue)

There are two important matters that must be brought to your attention, both of them in accordance with a decision recently made by the Executive Board of the Association, after an extended review of the situation, and deemed by them necessary under existing circumstances.

Item 1. Display advertising rates will be increased by 20 per cent, effective with the January, 1947, issue; contracts now in force and extending beyond said date will of course maintain present rates until their expiration. The complete table of rates will be published in the December issue.

The monthly publication of new applications reveals our steady and substantial growth. As of October 1st we had reached a paid circulation of 7,000, and by January 1st there will be a substantial margin beyond this figure. The increase during 1946 is already in excess of 20 per cent over 1945.

On the basis of 7,000 members and non-member subscribers, even at the single insertion rate of \$30 per page, the rate per 1,000 will cost the advertiser only \$4.30; and under a yearly contract, only \$3.85.

Item 2. On account of the continuing serious paper shortage, with prospects of increased difficulty, it has been deemed necessary to limit the advertising section (exclusive of cover) to 64 pages, beginning with the January issue. This will leave an equal number of pages for the remainder of the magazine, making a normal 128-page issue.

Such limitation presents a problem by no means light, because of unavoidable disappointments; but it is a situation we must face, and all possible consideration will be shown those who submit copy.

Contract advertisers must, of course, be given preference; copy from members will take precedence over that of non-members; and the order in which copy is received will, so far as available space units are concerned, govern its acceptance. Attention is called to the established deadline for **receipt** of copy by the Business Manager by the 10th of the month for the following month's issue.

Under the circumstances, not to exceed four pages can be assigned to any advertiser in a given issue, unless all other submitted copy should call for less than 60 pages (exclusive of cover).

It should be understood that the limitation to 64 pages is an emergency measure, and will be rescinded when conditions permit.

I shall publish a superb, illustrated "Mehl Quality" catalogue. This will be sent free to all who are on my MEHLING LIST. Others may have it free by ordering the price list of the sale, at only \$1.00.

Due to the present extreme difficulty in obtaining the high grade of paper I use for my deluxe catalogues, I am obliged to limit their number to 3,000; so, first come, first served. More than 2,000 catalogues have already been assigned; less than 1,000 are available even now at \$1.00, which will include the price list.

DEALERS IN FINE COINS FOR DISCRIMINATING COLLECTORS

THE VISU-ALL is not just another novelty in coin containers; it was created with very definite objects in view:

On the aesthetic side: it meets the desire many numismatists have expressed for a refinement in crystal clear textures. It has charm and richness, combined with positive simplicity and durability. Enhancement of the appearance of your coin is definite.

On the practical side: the VISU-ALL holder is scientifically constructed; strong, with unique means of stationary housing in an airtight compartment, assuring the coin of freedom from every damaging element. The obverse, reverse and edge of the piece are visible. A convenient size for filing, and amazingly attractive for display purposes. Exclusive with the VISU-ALL is the information and indexing tab, also space for confidential data hidden from view.

Enthusiastic praise as well as endorsements from collectors and dealers alike have welcomed this fine contribution to numismatics; and upon your own examination we expect the verdict: "Truly a coin holder overwhelmingly preferred."

AMERICAN COIN DEALERS ASSOCIATION, INC.

A REPORT TO THE PUBLIC

We take pleasure in announcing that the ACDA has been incorporated under the laws of New York State. **Our Ass'n is now one year old.** Like all other new and untried ideas, the ACDA had a difficult beginning. During our formative days we were occupied mainly with overcoming the forces of doubt, inertia, and reaction. **However, with the passage of time,** the innate good sense of our organization began to make itself felt. At this writing, a notable majority of American dealers are members.

This Report To The Public is to introduce ourselves to the many new readers of this magazine and to reiterate the principles and aims of each member.

The profession of coin dealing is no different from any other that has established itself in this world—a certain amount of malpractice is bound to creep in, human nature being what it is. Some of these practices are a nuisance to collectors; others are injurious to their good will; and still others have caused a great deal of distress. Whatever the offense, it redounds to the discredit of the legitimate dealer, and causes embarrassment to the entire profession. In short, the sins of a few make bad business for the many.

It is our aim to remove such practices wherever they may now exist, and to maintain by constant vigilance a standard of good business practice in the numismatic profession. We believe that we can be a powerful source of good in this respect. It is our earnest hope that the public should come away from the dealer not with resentment, but with the feeling of having been a party to a fair and honest transaction. **Every member in this Ass'n** has pledged himself to rules consistent with ethical business practice. He has been issued the identifying symbol of this Ass'n, a likeness of which appears above. Wherever you see this emblem, you may be assured of fair and honest dealing.

AN INVITATION TO THE PUBLIC

We invite your correspondence. Any constructive comments, suggestions and criticisms will be helpful. Complaints or grievances will be investigated and reported upon, and if at all possible, corrected. Coin dealers who are not yet members are invited to submit their applications. Address all correspondence to

I am buying Barber Dimes, Quarters, and Halves. The scarce dates acceptable in VG, but the common ones wanted only in VF and XF. As always, I also need most scarce dates of Morgan dollars in XF; VG will do for the very scarce ones.

If you are neglecting your 19th century U. S. to collect 20th century, you will be sorry soon. Better send me that want list for the ones you need in the older series right now.

Prompt service is my slogan, but I must apologize for the time taken to fill my roll orders from October ad. I was swamped.

A SET OF DIMES, POSSIBLY THE FINEST IN EXISTENCE

We realize that this is a very strong statement as above expressed, but we know without fear of contradiction that this set cannot be easily duplicated, nor is it likely that another as fine exists.

The set consists of 577 DIFFERENT die varieties, of which nine are sub-varieties, unknown to present cataloguers, and 568 are true die varieties.

Dates from 1796 to 1916.

All in Proof, B. U., X. F., or V. F.

There are only eight Dimes missing from this set, all of which could have been procured, with the exception of the 1894-S, but the condition of those offered was such that the former owner denied himself the opportunity of purchasing other than those in proof, uncirculated or extremely fine.

As an example of the rarities contained in the collection, in the best lot of Dimes offered in recent years there were but THREE different die varieties of the 1827; in this set there are TEN. There is also the 1905-O, a great rarity, brilliant uncirculated, with the microscopic "O." 1844 appears in BRILLIANT PROOF and BRILLIANT UNCIRCULATED. There are innumerable other rarities that would be virtually impossible to obtain today, inasmuch as this set has been 21 years in process of completion.

It is housed in 36 Wayne Raymond pages with binders. Full particulars on application from interested collectors. (Under no circumstances will this set be split or any of the rarities sold separately. TO BE SOLD AS A COLLECTION, AND AS A COLLECTION ONLY.)

PRICE \$6,000.00

SET OF HARD TIMES TOKENS

It is with pride we offer as a lot, and as a lot only, what we believe to be one of the finest collections of HARD TIMES TOKENS known, being second to none, collected by one of our foremost coin collectors, Past President of the A. N. A., author of many text books, pamphlets, and contributions to the coin world, and an authority on Hard Times Tokens.

No. 1 is in three varieties, finer than those in the collection of the American Numismatic Society, and there are innumerable rarities seldom found, some so rare that one only is known, and these are in the collection being offered.

If you are interested in having something unusual and of extreme rarity in your collection, write for full particulars.

PRICE \$1,750.00

MOUNTIES . . .

The PERFECT GIFT

for
CHRISTMAS

**MEDIUM SIZE
"MOUNTIE"
(actual size)**

As a coin collector, you know there is a lot of fuss and bother that goes with the enjoyment of your hobby.

As a coin collector, you have often desired a means of protecting your precious coins so you could handle them more, without fear of damaging or marring them . . . a means of keeping them in their original sparkling condition.

MOUNTIES ARE THE ANSWER TO YOUR DESIRES

The MOUNTIE is the 20th century coin encasement. It protects all coins—from the rarest museum pieces to your own treasured personal coins—in their original perfect condition. It is a new process of mounting coins up to 2 inches in diameter, in tough, crystal-clear lucite; thus eliminating the necessity of polishing the coins, and facilitating the ease of handling and shipping coins without danger of damaging them.

SPECIAL HOLIDAY GIFT CERTIFICATE

The perfect gift for numismatists. Gift certificates for one MOUNTIE encasement, \$1 each, or five for \$4.25. Certificates with your name on them will be mailed free of charge. This special offer available only until December 31, 1946. Special discounts for larger quantities.

JAP NOTE FOR INVASION OF UNITED STATES?

Under the above caption there appeared in the May, 1946 issue of the Numismatic Scrapbook, page 600, an illustration of a five dollar note with the obligation "THE JAPANESE GOVERNMENT PROMISES TO PAY THE BEARER ON DEMAND FIVE DOLLARS." This note being one of a set in the denominations 1c, 5c, 10c, 50c, \$1, \$5, \$10, \$100, and \$1000, now available and said to have been issued for the contemplated invasion of Hawaii, Alaska and even the United States.

From the nature and quantity of invasion money issued, the Japanese had great ambitions of conquest prior to their rude awakening by the Allied Armed Forces. Issues brought to our attention to date include the Philippine Islands, Dutch East Indies, Australia, Borneo, Sarawak, Malaya and the so-called United States issue.

The issue for Philippine occupation are the most common; those of the Dutch East Indies come second, but we have found them to be far fewer in number and much more scarce. All other issues are quite scarce and no large quantities have been offered. It would, therefore, appear that the notes here offered will be scarce and become widely sought.
